

IBM 46xx SI/O 4A/B Splitter

Add a 4x,9x port to your IBM 46xx POS terminal.

The IBM SI/O 4A/B Splitter allows you to add POS peripherals (such as scanners, signature capture pads, etc.) that utilize the 4x, 9x port on the IBM 46XX POS terminals by creating additional 4x, 9x ports from one 4x,9x port.

Features

- Add an additional 4x, 9x port
- Can daisy chain with multiple splitters
- Keyed for only 4x, 9x connections
- Ten inch extension cord for 4x, 9x connector

Input	Output 1	Output 2
4A	4A	4A
4B/9x	4A	4B/9x
	4B/9x	4B/9x
